

1 We claim:

- 2 1. A method of manufacturing cosmetic preparations comprising the mixing  
3 of cosmetic preparation precursors in a process vessel to form said  
4 cosmetic preparations during consecutive heating and cooling cycles.
- 5 2. The method of manufacturing cosmetic preparations of Claim 1 wherein  
6 said cosmetic preparation precursors comprise at least 50% processed  
7 Dead Sea mineral particles.
- 8 3. The method of manufacturing cosmetic preparations of Claim 2 wherein  
9 said cosmetic preparation precursors comprise a mixture of at least 50%  
10 processed Dead Sea minerals in a continuous all-natural carrier medium  
11 wherein said Dead Sea minerals do not rapidly settle out of said carrier  
12 medium.
- 13 4. The method of manufacturing cosmetic preparations of Claim 3 wherein  
14 said continuous all-natural carrier medium comprises palm oil.
- 15 5. The method of manufacturing cosmetic preparations of Claim 4 wherein  
16 said continuous all-natural carrier medium comprises soybean oil.
- 17 6. The method of manufacturing cosmetic preparations of Claim 5 wherein  
18 said continuous all-natural carrier medium comprises olive oil.
- 19 7. The method of manufacturing cosmetic preparations of Claim 6 wherein  
20 said continuous all-natural carrier medium comprises jojoba oil.
- 21 8. The method of manufacturing cosmetic preparations of Claim 7 wherein

- 1           said continuous all-natural carrier medium comprises beeswax.
- 2       9.    The method of manufacturing cosmetic preparations of Claim 8 wherein
- 3           said continuous all-natural carrier medium comprises jojoba wax.
- 4       10.   The method of manufacturing cosmetic preparations of Claim 9 wherein
- 5           said continuous all-natural carrier medium comprises cashew husk oil
- 6           ethoxylate.
- 7       11.   The method of manufacturing cosmetic preparations of Claim 10 wherein
- 8           said continuous all-natural carrier medium comprises coconut oil.
- 9       12.   The method of manufacturing cosmetic preparations of Claim 1 wherein
- 10           said cosmetic preparation precursors comprise an essential oil blend.
- 11       13.   The method of manufacturing cosmetic preparations of Claim 12 wherein
- 12           said essential oil blend comprises lavender.
- 13       14.   The method of manufacturing cosmetic preparations of Claim 13 wherein
- 14           said essential oil blend comprises rosewood.
- 15       15.   The method of manufacturing cosmetic preparations of Claim 14 wherein
- 16           said essential oil blend comprises chamomile.
- 17       16.   The method of manufacturing cosmetic preparations of Claim 15 wherein
- 18           said essential oil blend comprises calendula.
- 19       17.   The method of manufacturing cosmetic preparations of Claim 1 wherein
- 20           said consecutive heating and cooling cycles comprise the step of heating
- 21           said process vessel to about 65 degrees Celsius.

- 1 18. The method of manufacturing cosmetic preparations of Claim 17 wherein  
2 said consecutive heating and cooling cycles further comprise the step of  
3 cooling said process vessel after said heating step.
- 4 19. The method of manufacturing cosmetic preparations of Claim 18 wherein  
5 said cooling step occurs at a rate of at least 200 gallons in about two  
6 hours or less.
- 7 20. The method of manufacturing cosmetic preparations of Claim 19 wherein  
8 said consecutive heating and cooling cycles further comprise the step of  
9 cooling said process vessel to about 42 degrees Celsius.
